

**Cercobin WG®
MAPP 13854**

A water dispersible granule formulation containing 700 g/kg thiophanate-methyl for the reduction of fusarium and reduction of mycotoxins in wheat and triticale.

1 Kg e

Batch No:

THE (COSHH) CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH REGULATIONS MAY APPLY TO THE USE OF THIS PRODUCT AT WORK.

SAFETY PRECAUTIONS

Operator protection

Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

WEAR SUITABLE PROTECTIVE GLOVES when handling the concentrate and when handling contaminated surfaces.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

Environmental protection

DO NOT ALLOW DIRECT SPRAY from horizontal boom sprayers to fall within 5m of the top of the bank of a static or flowing water body, unless a Local Environment Risk Assessment for Pesticides (LERAP) permits a narrower buffer zone, or within 1m of the top of a ditch which is dry at the time of application. DO NOT ALLOW DIRECT SPRAY from hand-held sprayers to fall within 1m of the top of the bank of a static or flowing water body. Aim spray away from water.

Do not contaminate water with the product or its container. (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads).

Storage and disposal

WASH OUT CONTAINER THOROUGHLY, empty washings into spray tank and dispose of safely.

**IMPORTANT INFORMATION
FOR USE ONLY AS AN AGRICULTURAL FUNGICIDE**

Crops	Maximum individual dose (Kg product/Ha)	Maximum number of treatments	Latest time of application
Wheat	1.1	1	Before early milk Stage (BBCH 73)
Triticale	1.1	1	Before early milk Stage (BBCH 73)

Other specific restriction:

This product qualifies for inclusion within the Local Environment Risk Assessment for Pesticides (LERAP) scheme. Before each spraying operation from a horizontal boom sprayer, either a LERAP must be carried out in accordance with the 'Local Environment Risk Assessment for Pesticides Horizontal Boom Sprayers' booklet available from the HSE Chemicals Regulation Directorate's website or the statutory buffer zone must be maintained. The results of the LERAP must be recorded and kept available for three years.

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.

CERCOBIN WG®

A water dispersible granule formulation containing 700 g/kg thiophanate-methyl

WARNING

HARMFUL IF SWALLOWED.

MAY CAUSE AN ALLERGIC SKIN REACTION.

HARMFUL IF INHALED

SUSPECTED OF CAUSING GENETIC DEFECTS

VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Avoid breathing dust.

Do not eat, drink or smoke when using this product.

Use only outdoors or in a well-ventilated area.

Avoid release to the environment.

Wear protective gloves/protective clothing/eye protection/face protection.

IF exposed or concerned: Get medical advice/attention.

Store locked up.

Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

To avoid risks to human health and the environment, comply with the instructions for use

CONDITIONS OF SUPPLY: The Seller warrants that the goods shall at the time of delivery to the Buyer conform to the Seller's standard specification but all other conditions and warranties, whether express or implied by statute or custom of the trade or otherwise and whether as to condition, quality, performance, merchantability, fitness for any purpose or otherwise, are expressly excluded and, subject as aforesaid, the Seller shall be under no liability whatsoever, in contract or in tort, for or in respect of any loss or damage whatsoever resulting from or arising out of the goods or supply or use thereof, whether caused by the negligence of the Seller or otherwise. The Seller shall be under no liability in respect of the warranty given above

GENERAL INFORMATION

Cercobin is a systemic fungicide. It will reduce the level of Fusarium ear blight in winter wheat and triticale and will reduce mycotoxin levels in the crop independently. Many fungicides are currently at risk in terms of the occurrence of resistant fungal strains. Therefore, a decline of the product performance cannot be excluded under adverse conditions.

DIRECTIONS FOR USE

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

Crops

For use on wheat and triticale for the reduction of fusarium and to reduce the level of mycotoxins.

Mixing

Spraying equipment should be calibrated at regular intervals. Shake the Cercobin WG container prior to use. Fill spray tank to $\frac{3}{4}$ volume with water. Add the correct amount of Cercobin while stirring. Fill up to the required water volume. During application maintain agitation.

Application

Apply 1.1 kg product per ha in up to 500 litres water per ha.
Spraying at flowering time (GS 61 to GS 71).

A maximum of one application.

Use a Medium Quality spray as defined by BCPC.

Do not prepare more spray liquid than required. Completely drain container. Wash out container thoroughly. Add washings to the sprayer at the time of filling. In case of unavoidable spray residues dilute to ratio 1:10 and apply on the previously treated area/crop.

EFFECTS ON BREADMAKING HAVE NOT BEEN FULLY TESTED. CONSULT GRAIN MERCHANT OR PROCESSOR BEFORE USE.

General directions for use / Warranty and liability

The directions for use of this product are to the best of our current knowledge and comply with the regulations of the competent authority. They do not release the user from own testing or checking prior to handling and spraying this product. As storage and application are beyond our control and as it is impossible to foresee all circumstances inherently associated with the use of the product, our warranty does not extend to damage related to improper storage and application. The application of the product in uses not supported by the label, particularly in non-listed crops, was not subject of our own testing. This primarily implies to uses granted by the registration authority but not being recommended by ourselves. Therefore, we shall not be liable for any consequential damage resulting from such a use.

Multiple factors, mainly site or area related, may interfere with the activity of the product. These comprise e.g. weather and soil conditions, crop varieties, crop rotation, application timing, rate of use, not supported tank mixtures, the occurrence of resistant organisms (such as fungal strains, plants, insects), application technique etc. As a result, adverse conditions may alter the efficacy of the product or induce crop damage. We and our distributors shall not be liable for any such consequence. Recipients of our products must take responsibility for observing patents, existing laws and regulations, restrictions related to product registration as well as the label.

Section 6 of the Health and Safety at Work Act

Additional Product Safety Information

(This section does not form part of the product label under the Plant Protection Product Regulations 2005).

The product label provides information on a specific pesticidal use of the product; do not use otherwise, unless you have assessed any potential hazard involved, the safety measures required and that the particular use has 'off-label' approval or is otherwise permitted under the Plant Protection Products Regulations.

The information on this label is based on the best available information including data from test results.
