High Performance Slug Control in Potatoes

- Quality durum wheat pellet
- Zero buffer zone
- Zero days harvest interval, maximising lifting flexibility
- Accurate spreading to 18m
- Unique manufacturing process; raw materials compressed ensuring pellet integrity

Look at the Crop for Results, Not for Dead Slugs

- DERREX is stomach acting so once the slugs have ingested the product, they stop feeding straight away providing immediate crop protection
- Slugs ingesting a lethal dose of DERREX cannot recover and become less mobile and eventually die, often underground

Highly Effective On Small and Juvenile Slugs
Formulation | Ferric phosphate 3%, granular bait (GB)
Chemical Class | Mineral compound
Crops | All edible and non edible crops, including organic systems
Max. Individual Dose | 7 Kg/Ha
Harvest Interval | None
Max. Total Dose | 28 Kg/Ha/crop
MAPP No. | 15351
Pack | 20 Kg bag
LERAP | None
