PLEASE NOTE: Tank mixes are made for convenience of application only. **The test results provided do not represent a guarantee of chemical and/or biological compatibility, nor crop safety of any tank mix.** The test conducted and the conclusions drawn do not represent or imply an approval or recommendation by Certis UK Ltd for application of the mixture to any agricultural crop. It should be noted that plant protection products based on the same active substance(s) may vary in concentration and formulation. This can affect the tank mixability. Active substance alone is no guarantee of the product's tank mix properties and therefore a result for an active substance should not be considered as a result for tank mixing other than for the specific product named.

**When tank mixing with other products use a minimum water volume of 200 L/Ha.
Any label use restrictions of products in the mixture should be observed.**

All other brand names used in this tank mix list are acknowledged trademarks of other manufacturers in which propriety rights may exist.

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE. USE BIOCIDES SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE. Firestorm contains flufenacet and diflufenican. Firestorm is a trademark of Certis Europe BV.
