

## Technical Update: Disinfection Status

- Jet 5 is still available as a potent disinfectant
- Jet 5 a powerful, reliable and flexible disinfectant containing peroxyacetic acid, hydrogen peroxide, acetic acid, stabiliser, surfactant
- Excellent contact action
- No residues left on hard surfaces – breaks down into CO<sub>2</sub> and water
- A recognised food grade sanitiser disinfectant
- Ideal in Integrated Hygiene Management strategies
- Useful with notifiable micro-organisms in DEFRA listings
- Proven use: reliable and tested. Convenient to use
- Can be used for disinfection of spray lines

### Jet 5: Flexible Rates of use

Hard surfaces (Normal sanitation situations)	1 in 125 (i.e. 0.8 L/100 litres of water)
Water treatment	1 in 1000 – 2000
Irrigation equipment (lines/tanks)	1 in 125
Fogging (ideal for potato stores)	1 in 12
Unsealed concrete surfaces	1 in 50
Consult Certis if other situations to be considered Avoid copper and steel surfaces	

Application methods	knapsack - power lance – dip – fogging - pressure washer		
Mode of action	In solution produces free oxygen radicals that disrupt cells		
Situations/ equipment	All hard surfaces needing disinfection		
Guide rate	1 in 125 dilution but can vary rate if required	Temperature	Wide range
Organic use	yes – full or derogation*	Persistence	Short
Pack	5 and 20 litres	Indicator	Acetic acid smell

\* Contact your organic organisation before use.

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
