

New Approval Changes

- Approval details for Spruzit label are changing from 1st October 2018
- The main changes are:
 - **Specified** crops on the new label
 - Number of applications per crop, except for cabbage and lettuce
 - MAPP number will change from current 13438 to new 18434
- No change to actual product or benefits
 - Quick knockdown of target pests especially caterpillars
 - Does **not** contain PBO (piperonyl butoxide)
 - Contains both natural pyrethrins and natural oil
 - Oil content aids virus reduction and has a physical impact on targets
 - Organically approved and IPM compatible

Current Approval

- MAPP Number 13438
- All edible/non-edible crops
- 4 applications/crop
- Expires 30th September 2019

New Approval

- MAPP Number 18434
- Specified crops only
- Only 2 applications/crop, except cabbage and lettuce (4 applications)
- All other details will remain the same e.g. rate, max concentration, water volume and harvest interval

Key Timelines

- You can purchase the current approved product under MAPP 13438 until the **30th September 2018**
- Purchased product can then be stored and used up to **30th September 2019** (1 year use up period)
