SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product form : Mixture
Product name. : VALBON
Product code : KI 008 C1064
Type of formulation : Water dispersible (WG)
Active Ingredient : Mancozeb

1.2. Relevant identified uses of the substance or mixture and uses advised against
2.1. Relevant identified uses
Main use category : Plant protection product for professional use. Agriculture.
Use of the substance/mixture : Fungicide.

1.2.2. Uses advised against
No additional information available.

1.3. Details of the supplier of the safety data sheet
Supplier:
Kumiai Chemical Industry Co., Ltd.
Product Development & Technical Service Section
Overseas Department
1-4-26, Ikenohata, Taitoh-ku, Tokyo 110-8782,
Japan

Distributor:
CERTIS UK
Suite 5, 3 Riverside
Granta Park
Great Abingdon
Cambridgeshire CB21 6AD
United Kingdom
Tel: +44 (0)845 373 0305
Fax: +44 (0)1223 891210
Email: certis@certiseurope.co.uk
Website: www.certiseurope.co.uk

1.4. Emergency telephone number
Emergency number : Certis Carechem24 multilingual 24 hours emergency number: +44 (0) 870 190 6777.
For further advice for medical professionals:
The National Poisons Information Service: +44 (0) 870 600 6266.
For further advice for veterinary surgeons: +44 (0) 20 7635 9195
Dublin - National Poisons Information Centre, Beaumont Hospital, Dublin 9:
Available from 8 am to 10 pm - 7 days: +353 (01) 809 2166
Available 24hrs: +353 (01) 809 2566
SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Skin Sens. 1 H317
Carc. 2 H351
Repr. 2 H361
Aquatic Acute 1 H400

Full text of H-phrases: see section 16

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP):

- GHS07
- GHS08
- GHS09

Signal word (CLP): Warning

Hazard statements (CLP):

H317 - May cause an allergic skin reaction.
H351 - Suspected of causing cancer.
H361 - Suspected of damaging fertility or the unborn child.
H400 - Very toxic to aquatic life.

Precautionary statements (CLP):

P101 - If medical advice is needed, have product container or label at hand.
P103 - Read label before use.
P260 - Do not breathe spray.
P263 - Avoid contact during pregnancy/while nursing.
P273 - Avoid release to the environment.
P281 - Use personal protective equipment as required.
P308+P313 - IF exposed or concerned: Get medical advice/attention.
P501 - Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

EUH phrases:

EUH401 - To avoid risks to human health and the environment, comply with the instructions for use

2.3. Other hazards

No additional information available

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable.

3.2. Mixture
### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

**First-aid measures general**
In the event of any complaints or symptoms, avoid further exposure.

**First-aid measures after inhalation**
- **If Inhaled:** If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.
- If symptoms persist call a doctor.

**First-aid measures after skin contact**
- **If ON Skin:** Wash with plenty of soap and water.
- Remove contaminated clothing and shoes.
- If skin irritation or rash occurs: Get medical advice/attention.

**First-aid measures after eye contact**
- **If in Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Consult an eye specialist.

**First-aid measures after ingestion**
- **If swallowed:** Immediately call a POISON CENTER or doctor.
- Never give anything by mouth to an unconscious person.

#### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms after ingestion**
After gavage to rats, no clinical signs of toxicity were observed throughout the 14-day observation period.

**Symptoms after skin contact**
After intradermal injection in the guinea-pig, erythema, eschar and desquamation of the epidermis were observed.

**Symptoms after inhalation**
After 4-hour inhalation exposure of rats, there were no clinical signs attributed to the test article.

**Symptoms after eye contact**
After instillation in eyes of rabbits, a single instillation elicited conjunctival irritation, which did not exceed a diffuse crimson colour in the sentinel rabbit, injection of the blood vasculature in the main study rabbits, swelling with partial eversion of the eyelids and some slight discharge were seen in all animals. All irritation reactions had resolved by four or five days after dosing.

#### 4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

**Suitable extinguishing media**
- Water spray
  - Dry chemical powder
  - Alcohol resistant foam
  - Carbon dioxide (CO₂).
Unsuitable extinguishing media: Jet of water.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Combustion or thermal decomposition may generate toxic vapours.

5.3. Advice for firefighters
Firefighting instructions: Exercise caution when fighting any chemical fire.

- Fight fire from safe distance and protected location.
- Do not breathe fumes.
- Cool closed containers exposed to fire with water spray
- If possible, take the containers out of dangerous zone.
- Contain fire-fighting water with dikes or absorbents to prevent migration and entry into sewers or streams.

Protection during firefighting: Wear suitable protective clothing, gloves, eye/face protection and respiratory protection.
- Wear a self-contained breathing apparatus.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Protective equipment: Wear suitable protective clothing, gloves and eye or face protection.
Emergency procedures: Evacuate area.
- Ensure adequate ventilation.
- Avoid direct contact with the substance.
- Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

6.2. Environmental precautions
Prevent entry to sewers and public waters.
Notify the authorities if product enters sewers or public waters.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Clean up any spills as soon as possible, using an absorbent material to collect it.
- Once absorbed collect spilled material with shovels, buckets and place in closed containers and label properly.
- Remove as chemical waste, according to national or local legislation.
- In the event of major spillage: contact an expert.

6.4. Reference to other sections
See sections 7-8-13.
### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

- **Precautions for safe handling**: Read label before use.
  - Do not handle until all safety precautions have been read and understood.
  - Avoid contact with eyes, skin, nose and mouth.
  - Avoid breathing dust, mist or spray.
  - Avoid contact during pregnancy/while nursing.
  - Wear suitable protective clothing, gloves and eye or face protection.
  - Opened containers must be carefully closed and kept upright to avoid leakage.

- **Hygiene measures**: Always wash your hands immediately after handling this product, and once again before leaving the workplace.
  - Contaminated work clothing should not be allowed out of the workplace.
  - Do not eat, drink or smoke when using this product.
  - Wash contaminated clothing before reuse.

#### 7.2. Conditions for safe storage, including any incompatibilities

- **Storage conditions**: Keep in original containers, tightly closed.
  - Store in a dry, cool and well-ventilated place.
  - Keep away from heat and direct sunlight.
  - Store locked up.
  - Keep away from combustible material.
  - Keep away from food, drink and animal feedingstuffs.
  - Keep locked up and out of the reach of children.

- **Maximum storage period**: 2 years.

#### 7.3. Specific end use(s)

- **Fungicide for agricultural use. Refer to the label.**

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

- **Mean exposure limit value of dusts**: 10 mg/m³.

#### 8.2. Exposure controls

- **Appropriate engineering controls**: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

- **Hand protection**: Wear impervious gloves resistant to chemical. Nitrile rubber.

- **Eye protection**: Safety goggles or a face shield.

- **Skin and body protection**: Protective clothing with long sleeves waterproof and resistant to chemicals. Rubber boots.

- **Respiratory protection**: Wear appropriate respirator for dust / organic vapors.
Hygiene measures

Do not eat, drink or smoke while handling the product.
Clean gloves with soap and water before removing.
Wash hands and face with soap and water before eating, drinking or smoking.
Clean equipment, premises and work clothes regularly.
Work clothing should remain on the work area and stored separately from street clothes.

Environmental exposure controls

Discharge into the environment must be avoided.
Do not contaminate surface and groundwater.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

<table>

</table>

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No reactivity with packaging material after two-year storage at ambient temperature and after accelerated storage at 54°C for 14 days.

10.2. Chemical stability

Stable at ambient temperature and under normal conditions of use.

10.3. Possibility of hazardous reactions

No additional information available.

10.4. Conditions to avoid

Avoid elevated temperatures, moisture and oxygen, which break down the product and induce flammable and toxic gas.

10.5. Incompatible materials

Avoid strong oxidizing agents, strong acids, quaternaryammonium salts, sequestering agents.

10.6. Hazardous decomposition products

Combustion or thermal decomposition may generate toxic vapours.
### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

**Acute toxicity:** Not classified

**VALBON**

<table>
<thead>

</tr>
</tbody>
</table>

- **Skin Irritation:** Non skin irritant (rabbit)
- **Eye Irritation:** Mild eye irritant (rabbit)
- **Corrosivity:** Non corrosive (rabbit)
- **Sensitisation:** Skin sensitizer (guinea pigs)
- **Repeated dose toxicity:** Not classified
- **Carcinogenicity:** Limited evidence of a carcinogenic effect.

**Benthiavalicarb-isopropyl (177406-68-7)**

- Carcinogenicity (rat): Uterine adenocarcinoma (2years)
- Carcinogenicity (mouse): Hepatocellular blastoma and carcinoma, thyroid follicular cell adenoma (2years)

**Mancozeb (8018-01-7)**

- Carcinogenicity (rat): Thyroid adenomas and carcinomas at high doses (2yers)

- **Mutagenicity:** Not classified

**Benthiavalicarb-isopropyl (177406-68-7)**

- Mutagenicity: No mutagenic potential.

**Mancozeb (8018-01-7)**

- Mutagenicity: No mutagenic potential.

**Toxicity for reproduction:** Possible risk of harm to the unborn child.

**Benthiavalicarb-isopropyl (177406-68-7)**

- Toxicity for reproduction: No reproductive toxicant.

**Mancozeb (8018-01-7)**

- Toxicity for reproduction: Malformations at high doses in rats; embryo-/fetotoxicity (delayed ossification, abortions) at lower maternally toxic doses in rats and rabbits.

### SECTION 12: Ecological information

**Toxicity for reproduction:** Possible risk of harm to the unborn child.

12.5. Results of PBT and vPvB assessment
Not relevant.

12.6. Other adverse effects
No additional information available.

**SECTION 13: Disposal considerations**

13.1. Waste treatment methods
Waste treatment methods : Dispose in a safe manner in accordance with local/national regulations.

**SECTION 14: Transport information**

In accordance with ADR / RID / ADNR / IMDG / ICAO / IATA

14.1. UN number
UN-No. : 3077
UN-No.(IATA) : 3077

14.2. UN proper shipping name
Proper Shipping Name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S (Mancozeb)
Transport document description : UN 3077 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S (Mancozeb), 9, III
14.3. Transport hazard class(es)

Class (UN) : 9
Class (IATA) : 9 - Miscellaneous dangerous goods.
Hazard labels (UN) : 9

14.4. Packing group

Packing group (UN) : III

14.5. Environmental hazards

Dangerous for the environment :
Marine pollutant :

Other information : No supplementary information available.

14.6. Special precautions for user

14.6.1. Overland transport

Hazard identification number (Kemler No.) : 90
Classification code (UN) : M7
Orange plates : 90 3077

14.6.2. Transport by sea

EmS-No. (1) : F-A,S-F

14.6.3. Air transport

No additional information available

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

No REACH Annex XVII restrictions
Contains no REACH candidate substance

15.1.2. National regulations

No additional information available.

15.2. Chemical safety assessment

No additional information available.
## SECTION 16: Other information
