**Contents**

NPK fertilizer solution 5-20-5 with micro-nutrients. For foliar fertilization.

- 5 % N  Total nitrogen  65 g/l
- 20 % P₂O₅  Phosphate  260
- 5 % K₂O  Potassium  65
- 0.02 % B  Boron  0.26
- 0.05 % Cu  Copper  0.65
- 0.1 % Fe  Iron  1.30
- 0.05 % Mn  Manganese  0.65
- 0.001 % Mo  Molybdenum  0.013
- 0.05 % Zn  Zinc  0.65

The cationic micronutrients (iron, copper, manganese and zinc) are fully chelated (EDTA).

**Physicochemical properties**

- Density:  1.3 g/cm³
- pH-value:  approx. 5.8
- Colour:  green

**Description**

**Wuxal top P** is the specific foliar fertilizer for all special and intensive crops in agriculture and horticulture with increased requirements of phosphate which cannot be supplied by soil fertilization.

Also the addition of nitrogen, potassium and fully chelated micronutrients prevents an unbalanced nutrition of the cultivated plants. The high phosphate content permits the quick correction of acute P.deficiency and targeted prevention of latent deficiencies.

**Key benefits of WUXAL top P**

- very high phosphate content
- nitrogen and potassium contents in conformity with plant requirements to prevent an unbalanced phosphate nutrition
- well-balanced content of fully chelated micronutrients
- pH-regulation / high buffering capacity
- superchelation improves the water quality of the spray solution
- high crop safety
- nutrients readily available to plants
- can be applied with all usually HV and LV spraying and sprinkling equipment
- compatible with most commonly used pesticides

**Packaging**

12 x 1 l bottle, 20 l can, 200 l drum
Fields of application and rates of use

* applications in intervals of minimum 8 - 10 days

Precautions and Liability

When storing the product, temperatures below -3°C (27°F) and above +40°C (104°F) as well as frequent temperature fluctuations should be avoided. Considerable changes in temperature and/or too low temperatures can cause crystallization. The crystals will however easily dissolve again in the spray solution.

When mixing with pesticides for the first time, test on a small scale before general use.

The recommendations given here are of a general nature only. Please consult the special instructions for use before applying the product.

As storage and application of fertilizers are beyond our control, we only can be held liable for the satisfactory quality of the product at the time of delivery.
